● PROFILE

Full-stack developer and solutions architect with 6+ years of experience taking products from first prototype to production across Bubble.io, Flutter, React and TypeScript. I design and build platforms for healthcare, fintech, proptech, community and marketing clients in Israel and Kenya, with a track record of reducing operational costs by 60% and improving system efficiency by 40%.

● EXPERIENCE

Full-Stack Developer & Solutions Architect

Dec 2020 – Present

Freelance

Independent and agency work (including Deploy Technologies, Israel) across the full product lifecycle.

Clutch AI — AI ad creation platform

2026

REACT · TYPESCRIPT · SUPABASE · VERTEX AI · STRIPE

Built an AI ad studio end to end: brand kits from a logo or website, then campaign creatives, copy, product images and video, each scored with improvement tips. Gemini and Veo on Vertex AI with OpenAI failover, Stripe subscriptions with a free trial, and an admin area for revenue, prompts and alerts.

Hunters — Recruitment marketplace

Deploy Technologies · 2026

FIGMA · UX/UI · PRODUCT SPEC

Designed the web platform and marketing site for a marketplace where companies publish roles as tenders and head-hunters compete to submit candidates. Covered NDA flows, AI-assisted profiles built from uploaded CVs, subscriptions, payments and an internal inbox.

Eshuv — Settlement community platform

Deploy Technologies · 2025–2026

FLUTTER · SUPABASE · FIREBASE · VERCEL

Cross-platform system for residential communities in Israel: admin, manager and resident portals with real-time sync, authentication, push notifications and multi-settlement management.

Samsung Community — Community mobile app

FLUTTER · DART · SUPABASE · FIREBASE · FCM

Built a community app with a social feed, academy content and video on demand, events, points-based gamification, an in-app store, real-time messaging and push notifications, plus an admin panel for moderation.

Craftad.ai — AI content platform

Deploy Technologies · 2025

BUBBLE.IO · AI INTEGRATIONS

AI platform generating targeted ad creatives, copy and campaign assets, with template libraries, trend detection, performance statistics and project management.

CureBox — Healthcare & therapy platform

REACT · TYPESCRIPT · SUPABASE · VITE · TAILWIND · ZUSTAND

Architected a full-stack platform connecting patients with licensed therapists. Built role-based dashboards for patients, therapists and admins with appointment scheduling, Google Calendar sync, real-time messaging, CardCom payments, therapist verification and English/Hebrew support.

Power Couple — Real-estate investor app

Deploy Technologies · 2024

BUBBLE.IO · MOBILE

Investor app for a leading Israeli real-estate investment company, giving 1,000+ investors real-time portfolio tracking, per-investment performance and smart alerts.

AHNA Management System — Operations platform

BUBBLE.IO · CUSTOM PLUGINS

Six-module system (projects, personnel, customers, suppliers, dashboards, analytics) for an international company. Agent-pool management with skills tracking improved efficiency by 40%.

Printika — Custom print e-commerce

2025

FIGMA · UX/UI

Designed the full experience for a print-on-demand platform: product catalogue, design editor with live 2D/3D preview, uploads from Dropbox and Google Drive, and a multi-step checkout.

Kaching — Financial advisory platform

BUBBLE.IO · FINTECH

Platform for advisors to create personalised client portals for investment tracking, with financial dashboards and a management interface for consulting agencies.

FFili — Influencer marketing platform

BUBBLE.IO · MATCHING ALGORITHM

Connected brands, influencers and audiences, with matching algorithms for product-influencer pairing and personalised campaign recommendations.
